

**MINUIT[®]
UNE**

Revolutionary Light System

Mia Mao delivers an unforgettable surrounding lighting experience.

Focused on Minuit Une's lighting system, the venue envelops the audience in captivating lighting effects, enhancing clubbing, concerts, and events with a fully 360-degree immersive atmosphere.

The background of the slide is a photograph of a stage at night. Numerous bright orange laser beams radiate from several points on the stage floor, creating a starburst effect. The beams intersect and create a complex pattern of light. In the background, the silhouettes of stage structures and equipment are visible against the dark sky.

MINUIT
UNE®

A pioneering partnership

With one of the most advanced Minuit Une lighting system in the world, Mia Mao is a flagship venue for Minuit Une innovations: more experience, less consumption.

The Minuit Une team is fully available for any needs. All Minuit Une's services and support presented in this presentation are available and provided free of charge for any production working with Mia Mao.

Lighting process

MANDATORY TRAINING

All lighting operators new with the Mia Mao set-up must be trained previously following those steps:

1. First Training at Minuit Une HQ (Romainville/Pantin)
2. Training session at Mia Mao, guided by a Minuit Une expert
3. Solo session at Mia Mao

SHOWFILE UPDATE

A trained operator is allowed to update a personal version of the standard Mia Mao lighting show file. Minuit Une's team remain available any time to support and check.

Next Generation Light Shows

Developed by Minuit Une, IVL technology transforms small to mid-sized venues with expansive, multi-directional lighting. Unlike traditional beams, IVL fixtures create multiple immersive light shapes from one single source, maximizing impact with fewer units.

Designed for efficiency and creativity, the IVL range brings the depth and emotion of large-scale lighting to any space, redefining what's possible in volumetric lighting.

IVL Dice and IVL Photon, two complementary devices, deliver dynamic and captivating light shows, enhancing the intimacy of 200-5000 people venues while achieving breathtaking visual experiences.
